Classroom News

Dear Parents,

This month our theme is: "Insects and Bugs". We will be reinforcing the theme by singing well known nursery rhymes and through art projects. We will study the various types of insects and bugs noting their similarities and differences (i.e. How many legs does an ant have? Which insects have wings? What color is a ladybird?). As a part of this theme the children will be exploring and learning about different insects, whenever they fly or crawl and where to find them. We will be learning the names and how to recognize the most popular insects, for example: ladybird, spider, bee, beetle, ant, and many more. Children will also imitate bug's movements (crawling, creeping, marching).

We will continue working on your child's personal, social, emotional and communication skills.

Approved by:
Dr. Mohammed Ali Habib
Acting Director General

Shapes, Colors & Numbers

Colors:

New Color "Orange"

Shapes:

New Shape "Oval"
